

Number: Place Value

COUNTING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Subitise (recognise quantities without counting) up to 5. Verbally count beyond 20, recognising the pattern of the counting system	count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number			count backwards through zero to include negative numbers	interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero	use negative numbers in context, and calculate intervals across zero
	count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward	count from 0 in multiples of 4, 8, 50 and 100;	count in multiples of 6, 7, 9, 25 and 1000	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000	
	given a number, identify one more and one less		find 10 or 100 more or less than a given number	find 1000 more or less than a given number		
COMPARING NUMBERS						
Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity.	use the language of: equal to, more than, less than (fewer), most, least	compare and order numbers from 0 up to 100; use <, > and = signs	compare and order numbers up to 1000	order and compare numbers beyond 1000 <i>compare numbers with the same number of decimal places up to two decimal places (copied from Fractions)</i>	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)
IDENTIFYING, REPRESENTING AND ESTIMATING NUMBERS						
Represent numbers 1-20 in different ways.	identify and represent numbers using objects and pictorial representations including the number line	identify, represent and estimate numbers using different representations, including the number line Read a number line	identify, represent and estimate numbers using different representations	identify, represent and estimate numbers using different representations		

		where not all numbers on the scale are given and estimate points in between. GD only.				
--	--	--	--	--	--	--

READING AND WRITING NUMBERS (including Roman Numerals)						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Link numerals to amounts up to 5. Read and write numerals to 10.	read and write numbers from 1 to 20 in numerals and words.	read and write numbers to at least 100 in numerals and in words	read and write numbers up to 1000 in numerals and in words	read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Comparing Numbers)	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Understanding Place Value)
			<i>tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks (copied from Measurement)</i>			
UNDERSTANDING PLACE VALUE						
Have a deep understanding of number to 10, including the composition of each number.		recognise the place value of each digit in a two-digit number (tens, ones)	recognise the place value of each digit in a three-digit number (hundreds, tens, ones)	recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones)	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)

				<i>find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as units, tenths and hundredths (copied from Fractions)</i>	Numbers) <i>recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (copied from Fractions)</i>	<i>identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places (copied from Fractions)</i>
--	--	--	--	--	--	--

ROUNDING							
F1	F2	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					round any number to the nearest 10, 100 or 1 000	round any number up to 1 000 000 to the nearest 10, 100, 1 000, 10 000 and 100 000	round any whole number to a required degree of accuracy
					<i>round decimals with one decimal place to the nearest whole number</i> (copied from Fractions)	<i>round decimals with two decimal places to the nearest whole number and to one decimal place</i> (copied from Fractions)	<i>solve problems which require answers to be rounded to specified degrees of accuracy</i> (copied from Fractions)
PROBLEM SOLVING							
			use place value and number facts to solve problems	solve number problems and practical problems involving these ideas.	solve number and practical problems that involve all of the above and with increasingly large positive numbers	solve number problems and practical problems that involve all of the above	solve number and practical problems that involve all of the above

Number: Addition and Subtraction

NUMBER BONDS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Explore the composition of numbers to 10. Automatically recall number bonds for numbers 0-5 and some to 10.	represent and use number bonds and related subtraction facts within 20	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100				
MENTAL CALCULATION						
Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.	add and subtract one-digit and two-digit numbers to 20, including zero	add and subtract numbers using concrete objects, pictorial representations, and mentally, including: * a two-digit number and ones * a two-digit number and tens * two two-digit numbers * adding three one-digit numbers	add and subtract numbers mentally, including: * a three-digit number and ones * a three-digit number and tens * a three-digit number and hundreds		add and subtract numbers mentally with increasingly large numbers	perform mental calculations, including with mixed operations and large numbers
Compare quantities up to 10 in different context.	read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs	show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot	<i>show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot -</i>	<i>show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot - continue to develop</i>		<i>use their knowledge of the order of operations to carry out calculations involving the four operations - BODMAS</i>

	(appears also in Written Methods)		<i>continue to embed</i>	<i>understanding/practise</i>		Greater Depth only
--	-----------------------------------	--	--------------------------	-------------------------------	--	---------------------------

WRITTEN METHODS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Be shown mathematical statements and recognize + , - and = operations.	read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Mental Calculation)		add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction	add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate	add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)	<i>Add and subtract decimals, including using formal written methods (columnar addition and subtraction)</i>
INVERSE OPERATIONS, ESTIMATING AND CHECKING ANSWERS						
		recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.	estimate the answer to a calculation and use inverse operations to check answers	estimate and use inverse operations to check answers to a calculation	use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy	use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy.

PROBLEM SOLVING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6

	<p>solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \square - 9$</p>	<p>solve problems with addition and subtraction:</p> <ul style="list-style-type: none"> * using concrete objects and pictorial representations, including those involving numbers, quantities and measures * applying their increasing knowledge of mental and written methods <p>Use reasoning about numbers and relationships to solve more complex problems and explain their thinking. GD only.</p> <p>Solve unfamiliar word problems that involve more than one step. GD only</p>	<p>solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction</p>	<p>solve addition and subtraction one-step problems in contexts, deciding which operations and methods to use and why</p> <p><i>solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why</i> Greater Depth only.</p>	<p><i>solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.</i></p> <p><i>solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why</i> Greater Depth only.</p>	<p>solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why</p>
		<p><i>solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change (copied from Measurement)</i></p>				<p>Solve problems involving addition, subtraction, multiplication and division</p>

Number: Multiplication and Division

MULTIPLICATION & DIVISION FACTS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
<i>Recognise some double facts up to 10.</i>	<i>count in multiples of twos, fives and tens (copied from Number and Place Value)</i>	<i>count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward (copied from Number and Place Value)</i>	<i>count from 0 in multiples of 4, 8, 50 and 100 (copied from Number and Place Value)</i>	<i>count in multiples of 6, 7, 9, 25 and 1 000 (copied from Number and Place Value)</i>	<i>count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 (copied from Number and Place Value)</i>	

		recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers Make deductions outside known multiplication facts. 3 x tables 11 x tables GD only.	recall and use multiplication and division facts for the 3, 4 and 8, 11 multiplication tables 6 x tables 12 x tables GD only	recall multiplication and division facts for multiplication tables up to 12 x 12	<i>recall multiplication and division facts for multiplication tables up to 12 x 12</i>	<i>recall multiplication and division facts for multiplication tables up to 12 x 12</i>
MENTAL CALCULATION						
			write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Written Methods)	use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers	multiply and divide numbers mentally drawing upon known facts	perform mental calculations, including with mixed operations and large numbers
		show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot		recognise and use factor pairs and commutativity in mental calculations (appears also in Properties of Numbers)	multiply and divide whole numbers and those involving decimals by 10, 100 and 1000	<i>associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. $\frac{3}{8}$)</i> (copied from Fractions)
WRITTEN CALCULATION						

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		<p>calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (\times), division (\div) and equals (=) signs</p>	<p>write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental methods and the grid method. <i>Progressing to formal written methods for multiplying two-digit numbers times one-digit numbers. (appears also in Mental Methods) Greater Depth only.</i></p>	<p>multiply two-digit and three-digit numbers by a one-digit number using formal written layout</p>	<p><i>Multiply numbers up to 4 digits by a one-digit numbers using formal written method.</i> <i>Multiply numbers up to four digits by two-digit number using a formal written method, including long multiplication for two-digit numbers Greater Depth only.</i></p>	<p>Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication GD only</p>
					<p>divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context</p>	<p>divide numbers up to 4-digits by a two-digit whole number using the formal written method of short division and where appropriate for the context interpret remainders by rounding. Where appropriate for the context divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number</p>

						remainders, fractions Greater Depth only.
						use written division methods in cases where the answer has up to two decimal places (copied from Fractions (including decimals))
PROPERTIES OF NUMBERS: MULTIPLES, FACTORS, PRIMES, SQUARE AND CUBE NUMBERS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
				recognise and use factor pairs and commutativity in mental calculations (repeated)	<p>identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers.</p> <p>know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers Greater Depth only.</p> <p>establish whether a number up to 100 is prime and recall prime numbers up to 19 Greater Depth only.</p>	<p><i>know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers</i></p> <p><i>establish whether a number up to 100 is prime and recall prime numbers up to 19</i></p> <p>identify common factors, common multiples and prime numbers <i>use common factors to simplify fractions; use common multiples to express fractions in the same denomination (copied from Fractions)</i></p>
					recognise and use	calculate, estimate

					<p>square numbers and the notation for squared (²) recognise and use cube numbers, and the notation for cubed (3) Greater Depth only.</p>	<p><i>and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm³) and cubic metres (m³), and extending to other units such as mm³ and km³</i> <i>(copied from Measures)</i> Greater Depth only.</p>
--	--	--	--	--	--	---

ORDER OF OPERATIONS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
						<p>use their knowledge of the order of operations to carry out calculations involving the four operations Greater Depth only.</p>
INVERSE OPERATIONS, ESTIMATING AND CHECKING ANSWERS						
			<p><i>estimate the answer to a calculation and use inverse operations to check answers</i> <i>(copied from Addition and Subtraction)</i></p>	<p><i>estimate and use inverse operations to check answers to a calculation</i> <i>(copied from Addition and Subtraction)</i></p>		<p>use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy</p>

PROBLEM SOLVING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher	solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts	solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects <i>Greater Depth only.</i>	solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects <i>Greater Depth only</i>	solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes (GD)	solve problems involving addition, subtraction, multiplication and division
					solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign	
					solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates <i>Greater Depth only.</i>	<i>solve problems involving similar shapes where the scale factor is known or can be found</i> (copied from Ratio and Proportion) GD only

Number: Fractions (including Decimals and Percentages)

COUNTING IN FRACTIONAL STEPS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		<i>Pupils should count in fractions up to 10, starting from any number and using the $\frac{1}{2}$ and $\frac{2}{4}$ equivalence on the number line (Non Statutory Guidance)</i>	count up and down in tenths	count up and down in hundredths		
RECOGNISING FRACTIONS						
	recognise, find and name a half as one of two equal parts of an object, shape or quantity	recognise, find, name and write fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity	recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)	
			recognise that tenths arise from dividing an object into 10 equal parts and in dividing one - digit numbers or quantities by 10.			

	recognise, find and name a quarter as one of four equal parts of an object, shape or quantity		recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators			
COMPARING FRACTIONS						
			compare and order unit fractions, and fractions with the same denominators	Revise comparing and ordering unit fractions, and fractions with the same denominators	compare and order fractions whose denominators are all multiples of the same number	Revise comparing and ordering fractions whose denominators are all multiples of the same number compare and order fractions, including fractions >1 Greater Depth only.

COMPARING DECIMALS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
				compare numbers with the same number of decimal places up to two decimal places	read, write, order and compare numbers with up to three decimal places	identify the value of each digit in numbers given to three decimal places
ROUNDING INCLUDING DECIMALS						
				round decimals with one decimal place to the nearest whole number	round decimals with two decimal places to the nearest whole number and to one decimal place	solve problems which require answers to be rounded to specified degrees of accuracy
EQUIVALENCE (INCLUDING FRACTIONS, DECIMALS AND PERCENTAGES)						
		write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$.	recognise and show, using diagrams, equivalent fractions with small denominators	recognise and show, using diagrams, families of common equivalent fractions	Revise how to recognise and show, using diagrams, families of common equivalent fractions identify, name and write equivalent fractions of a given fraction,	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths use common factors to simplify fractions; use

					represented visually, including tenths and hundredths Greater Depth only.	common multiples to express fractions in the same denominator Greater Depth only.
				recognise and write decimal equivalents of any number of tenths or hundredths	read and write decimal numbers as fractions (e.g. $0.71 = \frac{71}{100}$)	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. $\frac{3}{8}$)
					recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	
				recognise and write decimal equivalents to $\frac{1}{4}$; $\frac{1}{2}$; $\frac{3}{4}$	recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.

ADDITION AND SUBTRACTION OF FRACTIONS

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			add and subtract fractions with the same denominator within one whole (e.g. $\frac{5}{7} + \frac{1}{7} = \frac{6}{7}$)	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and multiples of the same number recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number (e.g. $\frac{2}{5} + \frac{4}{5} = \frac{6}{5} = 1\frac{1}{5}$)	add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions

MULTIPLICATION AND DIVISION OF FRACTIONS

						<p>multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams Greater Depth only.</p>	<p>Multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $\frac{1}{4} \times \frac{1}{2} = \frac{1}{8}$)</p> <p>multiply one-digit numbers with up to two decimal places by whole numbers Greater Depth only.</p>
							<p>divide proper fractions by whole numbers (e.g. $\frac{1}{3} \div 2 = \frac{1}{6}$) Greater Depth only.</p>
MULTIPLICATION AND DIVISION OF DECIMALS							
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
							<p>multiply one-digit numbers with up to two decimal places by whole numbers Greater Depth only.</p>
				<p>find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths</p>	<p>Continue to embed finding the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths</p>		<p>multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places</p>
							<p>identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the</p>

						answers are up to three decimal places
						associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. $\frac{3}{8}$)
						use written division methods in cases where the answer has up to two decimal places Greater Depth only.
PROBLEM SOLVING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			solve problems that involve all of the above	solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number	solve problems involving numbers up to three decimal places	
				solve simple measure and money problems involving fractions and decimals to two decimal places.	solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$, $\frac{4}{5}$ and those with a denominator of a multiple of 10 or 25.	

Ratio and Proportion

Statements only appear in Year 6 but should be connected to previous learning, particularly fractions and multiplication and division						
						Year 6
						solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts Greater Depth only.
						solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison
						solve problems involving similar shapes where the scale factor is known or can be found Greater Depth only.
						solve problems involving unequal sharing and grouping using knowledge of fractions and multiples. Greater Depth only.

Measurement

COMPARING AND ESTIMATING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Compare length, weight and capacity.	compare, describe and solve practical problems for: <ul style="list-style-type: none"> * lengths and heights [e.g. long/short, longer/shorter, tall/short, double/half] * mass/weight [e.g. heavy/light, heavier than, lighter than] * capacity and volume [e.g. full/empty, more than, less than, half, half full, quarter] * time [e.g. quicker, slower, earlier, later] 	compare and order lengths, mass, volume/capacity and record the results using $>$, $<$ and $=$		estimate, compare and calculate different measures, including money in pounds and pence (also included in Measuring)	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm^2) and square metres (m^2) and estimate the area of irregular shapes (also included in measuring) GD only	Continue to embed how to calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm^2) and square metres (m^2) and teach children to estimate the area of irregular shapes (also included in measuring) calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm^3) and cubic metres (m^3), and extending to other units such as mm^3 and km^3. GD only.

						<i>estimate volume (e.g. using 1 cm³ blocks to build cubes and cuboids) and capacity (e.g. using water) GD only.</i>
	sequence events in chronological order using language [e.g. before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening]	compare and sequence intervals of time	compare durations of events, for example to calculate the time taken by particular events or tasks			
			estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Telling the Time)			
MEASURING and CALCULATING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	measure and begin to record the following: * lengths and heights * mass/weight * capacity and volume * time (hours, minutes, seconds)	choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels GD to read scales where not all numbers on the scale are	measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml)	estimate, compare and calculate different measures, including money in pounds and pence (appears also in Comparing)	use all four operations to solve problems involving measure (e.g. length, mass, volume, money) using decimal notation including scaling.	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Converting) use all four operations to solve problems

		given and estimate points in between.				involving measure (e.g. length, mass, volume , money) using decimal notation including scaling . GD only
			measure the perimeter of simple 2-D shapes	measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres	<p><i>Revise how to measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres</i></p> <p>Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres</p> <p>GD only.</p>	<p><i>Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres</i></p> <p>recognise that shapes with the same areas can have different perimeters and vice versa</p> <p>GD only.</p>

MEASURING and CALCULATING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	recognise and know the value of different denominations of coins and notes	<p>recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value</p> <hr/> <p>find different combinations of coins that equal the same amounts of money</p> <hr/> <p>solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change</p>	add and subtract amounts of money to give change, using both £ and p in practical contexts	add and subtract amounts of money to give change, using both £ and p in practical contexts	add and subtract amounts of money to give change, using both £ and p in practical contexts	add and subtract amounts of money to give change, using both £ and p in practical contexts

				find the area of rectilinear shapes by counting squares	Revise how to find the area of rectilinear shapes by counting squares calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm²) and square metres (m²) GD only	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm ²) and square metres (m ²) and estimate the area of irregular shapes GD only calculate the area of parallelograms and triangles GD only.
						calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm ³) and cubic metres (m ³), and extending to other units [e.g. mm ³ and km ³].
						recognise when it is possible to use formulae for area and volume of shapes GD only

TELLING THE TIME

TELLING THE TIME						
EVFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.	tell and write the time to five minutes , including quarter past/to the hour and draw the hands on a clock face to show these times.	tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks	read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)	read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)	read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)
	recognise and use language relating to dates, including	know the number of minutes in an hour and	estimate and read time with increasing			

	days of the week, weeks, months and years	the number of hours in a day. (appears also in Converting)	accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Comparing and Estimating)			
				solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Converting)	solve problems involving converting between units of time	

CONVERTING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		know the number of minutes in an hour and the number of hours in a day. (appears also in Telling the Time)	know the number of seconds in a minute and the number of days in each month, year and leap year	convert between different units of measure (e.g. kilometre to metre; hour to minute)	convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)	use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places
				read, write and convert time between analogue	solve problems involving converting between units	solve problems involving the calculation and

				and digital 12 and 24-hour clocks (appears also in Converting)	of time	conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Measuring and Calculating)
				solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Telling the Time) GD only	<i>solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days</i> (appears also in Telling the Time) understand and use equivalences between metric units and common imperial units such as inches, pounds and pints GD only	convert between miles and kilometres GD only

Geometry: Properties of Shapes

IDENTIFYING SHAPES AND THIER PROPERTIES						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Compose and decompose shapes so that children recognise a shape can have other shapes within it, just as numbers can.	recognise and name common 2-D and 3-D shapes, including: * 2-D shapes [e.g. rectangles (including squares), circles and triangles] * 3-D shapes [e.g. cuboids (including cubes), pyramids and spheres].	identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line		identify lines of symmetry in 2-D shapes presented in different orientations	identify 3-D shapes, including cubes and other cuboids, from 2-D representations	recognise, describe and build simple 3-D shapes, including making nets (appears also in Drawing and Constructing)
		identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces				illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius GD only
		identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]				

		Describe the similarities and differences of 2D and 3D shapes, using their properties. GD only.				
DRAWING AND CONSTRUCTING						
			draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them	complete a simple symmetric figure with respect to a specific line of symmetry	draw given angles, and measure them in degrees (°)	draw 2-D shapes using given dimensions and angles recognise, describe and build simple 3-D shapes, including making nets (appears also in Identifying Shapes and Their Properties) GD only
COMPARING AND CLASSIFYING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		compare and sort common 2-D and 3-D shapes and everyday objects		compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes	use the properties of rectangles to deduce related facts and find missing lengths and angles	compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons

					distinguish between regular and irregular polygons based on reasoning about equal sides and angles	
ANGLES						
			recognise angles as a property of shape or a description of a turn		know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles	<i>Revise to know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles</i>
			identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle	identify acute and obtuse angles and compare and order angles up to two right angles by size	identify: * angles at a point and one whole turn (total 360°) * angles at a point on a straight line and $\frac{1}{2}$ a turn (total 180°) * other multiples of 90°	recognise angles where they meet at a point, are on a straight line, are vertically opposite , and find missing angles GD only
			identify horizontal and vertical lines and pairs of perpendicular and parallel lines			

Geometry: Position and Direction

POSITION, DIRECTION AND MOVEMENT						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Select, rotate and manipulate shapes in order to develop spatial reasoning	describe position, direction and movement, including half, quarter and three-quarter	use mathematical vocabulary to describe position, direction and movement including		describe positions on a 2-D grid as coordinates in the first quadrant	identify, describe and represent the position of a shape following a reflection or	describe positions on the full coordinate grid (all four quadrants)

skills.	turns.	movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise)		describe movements between positions as translations of a given unit to the left/right and up/down GD only	translation, using the appropriate language, and know that the shape has not changed	draw and translate simple shapes on the coordinate plane, and reflect them in the axes.
				plot specified points and draw sides to complete a given polygon		
PATTERN						
Continue, copy and create repeating patterns.		order and arrange combinations of mathematical objects in patterns and sequences				

Statistics

INTERPRETING, CONSTRUCTING AND PRESENTING DATA						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		interpret and construct simple pictograms, tally charts, block diagrams and simple tables Read scales where not all number on the scale are given and estimate points in between. GD only.	interpret and present data using bar charts, pictograms and tables	interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs	complete, read and interpret information in tables, including timetables	interpret and construct pie charts, line graphs, <i>pictograms, bar charts and tally charts</i> and use these to solve problems GD only
		ask and answer simple questions by counting the number of objects				

		in each category and sorting the categories by quantity				
		ask and answer questions about totalling and comparing categorical data				
SOLVING PROBLEMS						
			solve one-step and two-step questions [e.g. 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.	solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.	<i>Revise how to solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.</i>	<i>solve comparison, sum and difference problems using information presented in a line graph</i> Calculate and interpret the mean as an average GD only

Algebra

EQUATIONS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	<i>solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as</i>	<i>recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems.</i> (copied from Addition	<i>solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.</i> (copied from Addition and	<i>Revise how to solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.</i> (copied from Addition and	<i>Revise how to solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.</i> (copied from Addition and	<i>Revise how to solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.</i> (copied from Addition and

	7 = □ - 9 (copied from Addition and Subtraction)	and Subtraction) Use reasoning about numbers and relationships to solve more complex problems and explain their thinking (e.g. 29+17=15+4+?; 'together Jack and Sam have £14. Jack has £2 more than Sam. How much money does Sam have?' etc)	Subtraction) <i>solve problems, including missing number problems, involving multiplication and division, including integer scaling</i> (copied from Multiplication and Division)	Subtraction) <i>solve problems, including missing number problems, involving multiplication and division, including integer scaling</i> (copied from Multiplication and Division) *show 'missing box' as a letter	Subtraction) <i>solve problems, including missing number problems, involving multiplication and division, including integer scaling</i> (copied from Multiplication and Division) *show 'missing box' as a letter	Subtraction) <i>solve problems, including missing number problems, involving multiplication and division, including integer scaling</i> (copied from Multiplication and Division) *show 'missing box' as a letter express missing number problems algebraically GD only.
		<i>recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100</i> (copied from Addition and Subtraction)				find pairs of numbers that satisfy number sentences involving two unknowns GD only
	<i>represent and use number bonds and related subtraction facts within 20</i> (copied from Addition and Subtraction)					enumerate all possibilities of combinations of two variables GD only

FORMULAE						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
				<i>Perimeter can be</i>		use simple formulae

				<p>expressed algebraically as $2(a + b)$ where a and b are the dimensions in the same unit. (Copied from NSG measurement)</p>		<p>recognise when it is possible to use formulae for area and volume of shapes (copied from Measurement)</p>
SEQUENCES						
	<p>sequence events in chronological order using language such as: before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening (copied from Measurement)</p>	<p>compare and sequence intervals of time (copied from Measurement)</p>	<p>generate and describe linear number sequences</p>	<p>generate and describe linear number sequences</p>	<p>generate and describe linear number sequences</p>	<p>generate and describe linear number sequences</p>
	<p>order and arrange combinations of mathematical objects in patterns (copied from Geometry: position and direction)</p>
